CHASING DREAMS
hello, world!

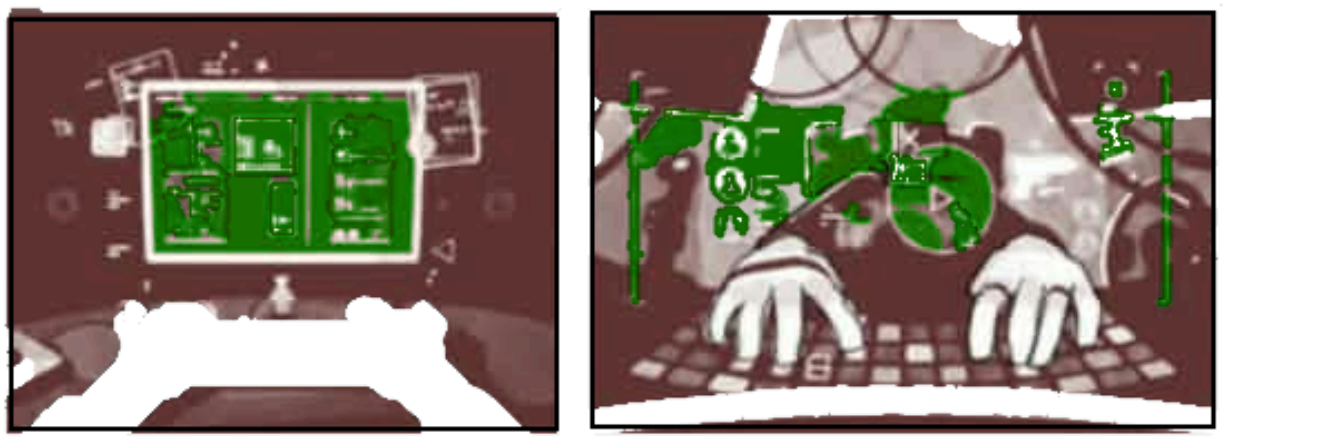

IT STUDENTS WITH DIFFERENT SKILLS AND DREAMS DECIDED TO JOIN AN IT INNOVATION COMPETITION

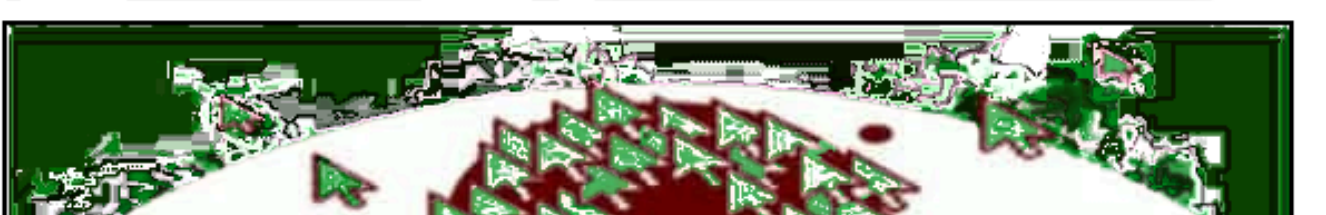

Why don't we join the IT innovation competition?
That's a great deal!
Let's create something useful for students
Click
Click
Click
Student plan a simple platform where students can access study materials, practices programming, and answer quizzes
We can make a study system for it students
It can have study materials
And programming practice and quizzes!

Oops

Our code has errors!
This feature still doesn't work

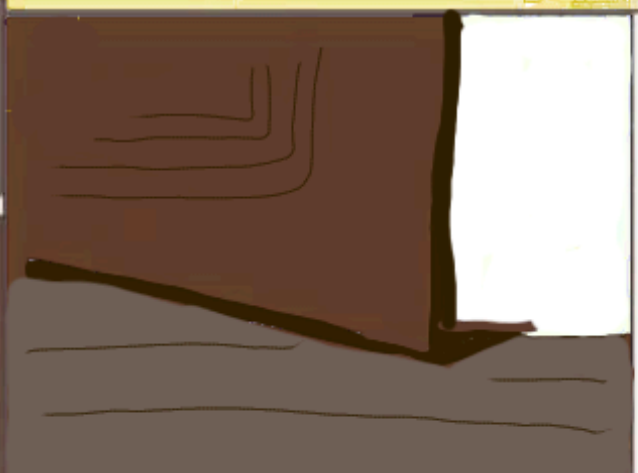

Don't give up
Let's find the problem
We can fix this together!
Let's keep going, we're almost done

Tick
Tock.
Tick
Tock

Same Dream
Same Goal
CHASING DREAMS
COFFEE

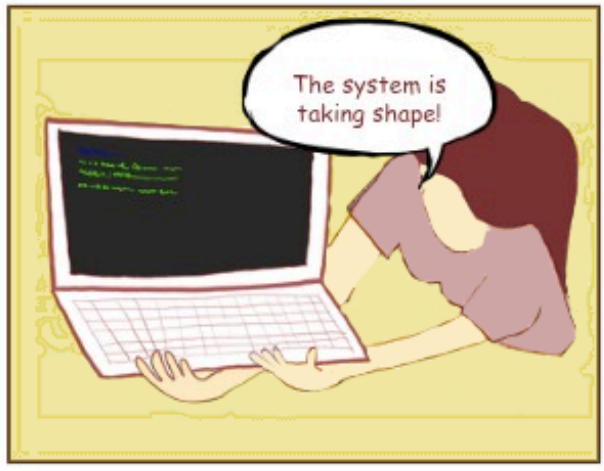

They worked together , using their different skills to solve each problems
Let me Finishing (the code)
I'll handle the design.
Ok i will test the system.

Fin testing the features.
They support each other, together they keep going.
We will get this done!
yESS
Definitely yes!

More bugs appeared, but they kept fixing and improving the system.
ERROR

Error
Error in coding takes time to build up again.

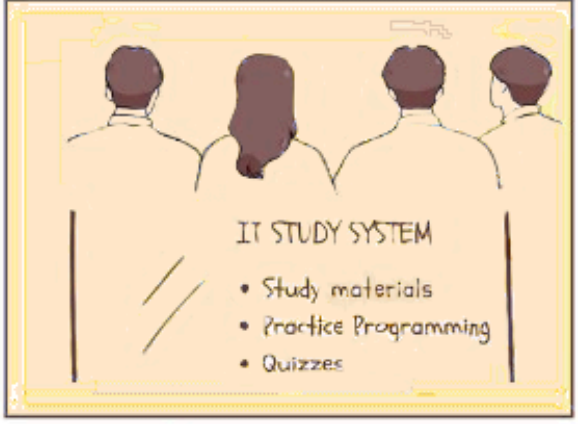

The U1 layout is messed up.
The data base is not syncing.

The system is taking shape!

I'm glad we didn't give up.
We did it together!
We learned so much...

Different skills..
Same goal!

Hello everyone, we will present the IT study system

IT STUDY SYSTEM
• Study materials
• Practice Programming
• Quizzes

Being an IT student is more than knowing how to code
It's about teamwork, patience and never giving up
Let's keep chasing our dreams!

Win!

Different dreams...
Same journey...
One team..

And they discovered what they were truly capable of.

And they were proud
We learned so much!
The hardwork really paid off
And this is just the beginning
But the competition is not just all about winning...

And experience the lessons, the friendship and what trully matters

Different skills

Same dreams

One team

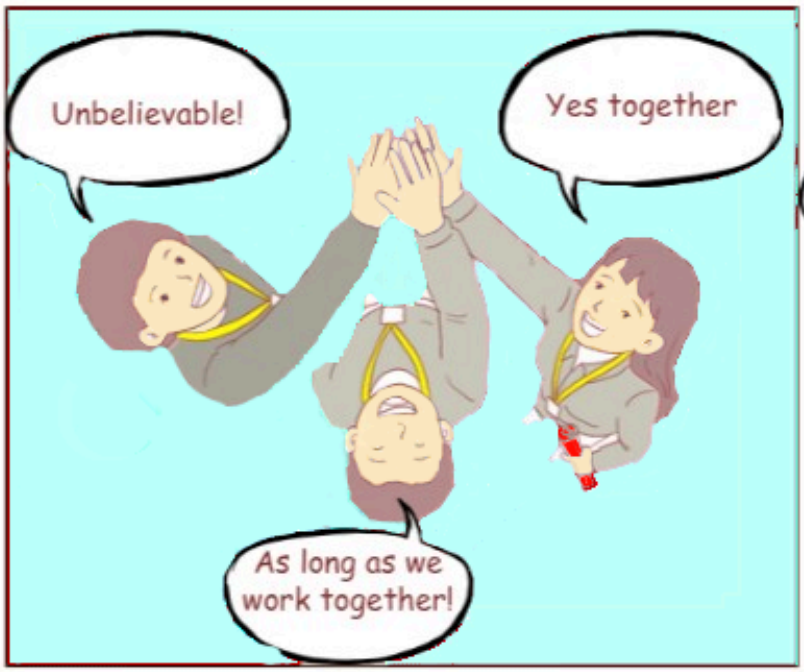

IT study system

A simple idea

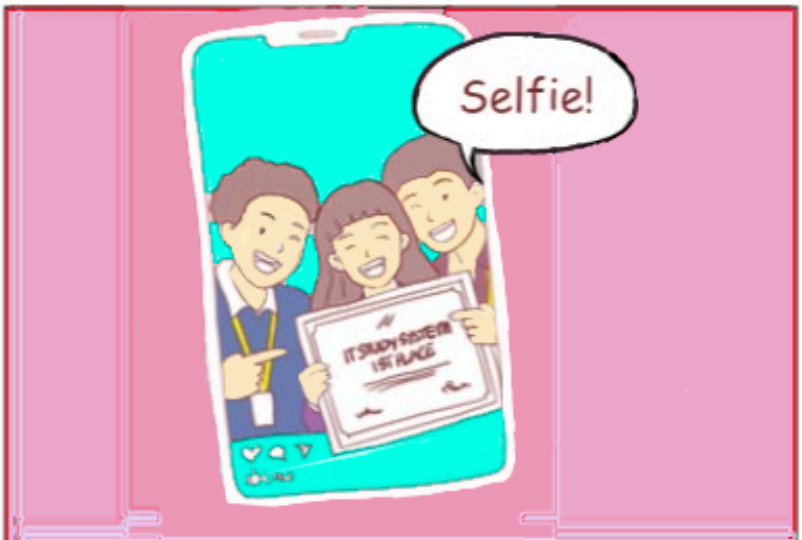

that made a big difference..

Look, users love it!
Success felt amazing, but it's just the start. Let make this something even better.

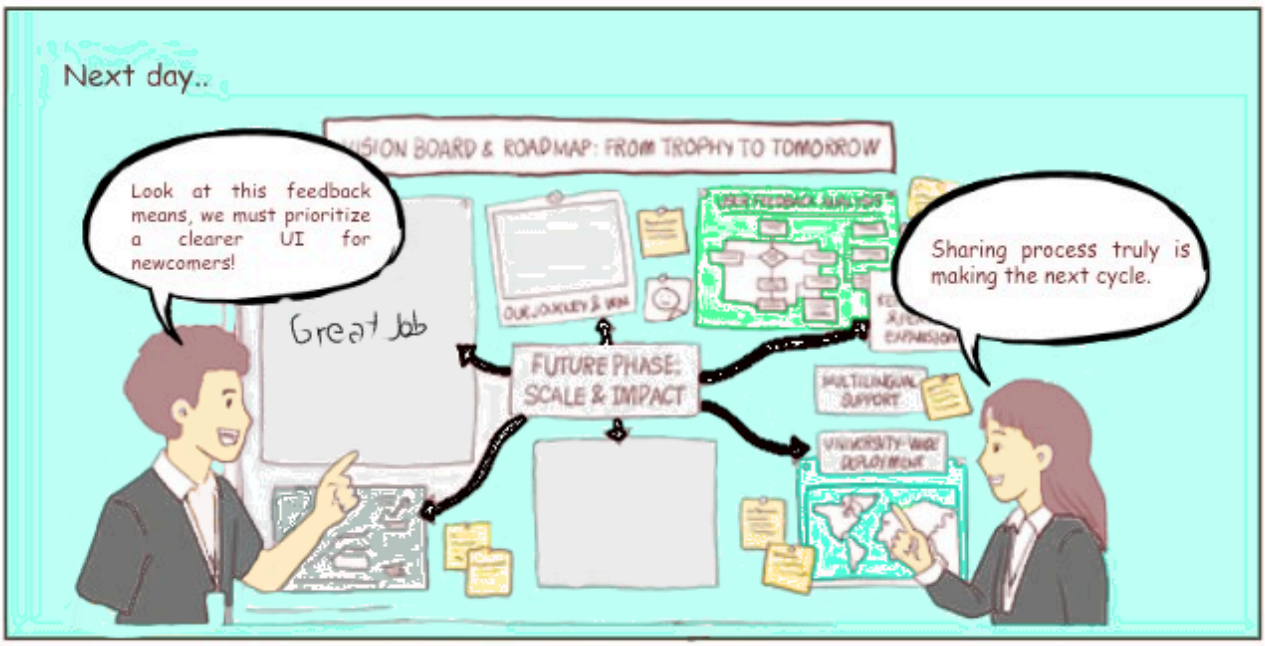

Unbelievable!
Yes together
As long as we work together!

"Walking out as different people than when they first walked in"
Are we celebrating at our usual coffee spot?
Yep, let's go!

Selfie!

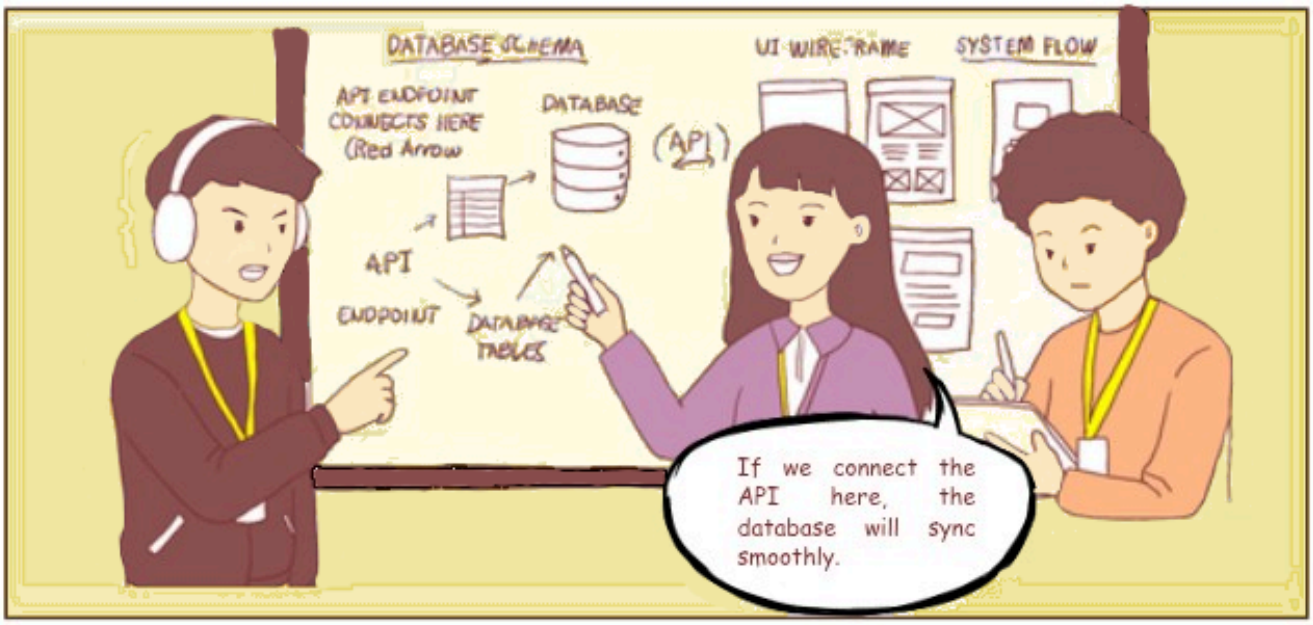

COFFEE

This is our knowledge that we gain in coding
yeah, our skills helps to get the winning in coding successful.
Let's celebrate this winning!

Next day..
VISION BOARD & ROADMAP: FROM TROPHY TO TOMORROW
Look at this feedback means, we must prioritize a clearer UI for newcomers!
Great Job
FUTURE PHASE: SCALE & IMPACT
Sharing process truly is making the next cycle.
MULTILINGUAL SUPPORT

We built a system to win a competition. Now, we're building a system to inspire a generation.
CITY TECH CENTER
Google
Microsoft
Startup
OUR GRADUATES

Look at this, thousand of active users worldwide and 85% of our certifies grade are already employed in tech!
Our vision didn't just end with a cleaner UI; it created actual career opportunities and narrowed the global knowledge gap.

DATABASE SCHEMA
UI WIRE-FRAME
SYSTEM FLOW
API ENDPOINT CONNECTS HERE (Red Arrow
DATABASE
(API)
API
ENDPOINT
DATABASE TABLES
If we connect the API here, the database will sync smoothly.

Yes, I think it will be use to help our community .
SYSTEM CHECKING
Look at this, thousand of active users worldwide and 85% of our certifies grads are already employed in tech!
COMPLETE (100%)
LIVE DATA 100% SYNCED

I'm glad we finally fixed that major sync issue.
We actually survived that bug marathon!
Now, we are ok in that, best cure is getting our fave coffee.

Next day...
Our system is reliable and scalable. Remember to highlight how we solve the main user problems.
Looks good, we will present the deployment success map from the vision board.
Hope this will be successful.
Focus, but also remember to breathe.
Sir, madam this mentor training will be launching within next month!
VISION BOARD
STUDENT REACH -
Look at this map..., thousand of unique visitors and our engagements score is skyrocketing
And the download counter is still growing!

I'm glad we finally fixed that majorr sync issue!
We actually survived that bug marathon!
Shared moments are the best cure for screen fatigue.
Okay, the initial launch plan is solid. We just need to define our first core feature
yep.
LAUNCH STRATEGY
user testing shows the shared task tracker is the most request elements. It fits our ethos.
user will want it.
This is so challenging in making coding...

zzzzzzz...
I'm very tired in this world.
at the hallway..
we need more time to to do the coding, half day is not enough-
okay, let's make that initial connection...

alright, we're in here, to make sure those users session metrics from our dreams are actually real.

okay, I'm refactoring the backend services to micro services. That have thousand more request.

Alright team, the freshman support cohort needs to review the load-testing scripts.

I will assure the users will benefit
Load test successful! data based queries are optimized.
We have over 500 early sign-ups
SYSTEM READY FOR BETA LAUNCH
COHORT SIGN-UPS: 500+.
LAUNCH PROTOCOL : ACTIVE.
Database sync is working on the dev branch
Database sync is working on the dev branch

yes, our coding is successfully done!
DEPLOYMENT SUCCESSFUL!
Before graduation day...

Here are the notes for our project—everything looks ready for graduation!"

I'm really nervous
Do not panic, we are done in sleepnights
I'm nervous in the real world..

We are going to be late!

We did it, let's chase our next dreams!
This is our beginning..
We are now graduate!

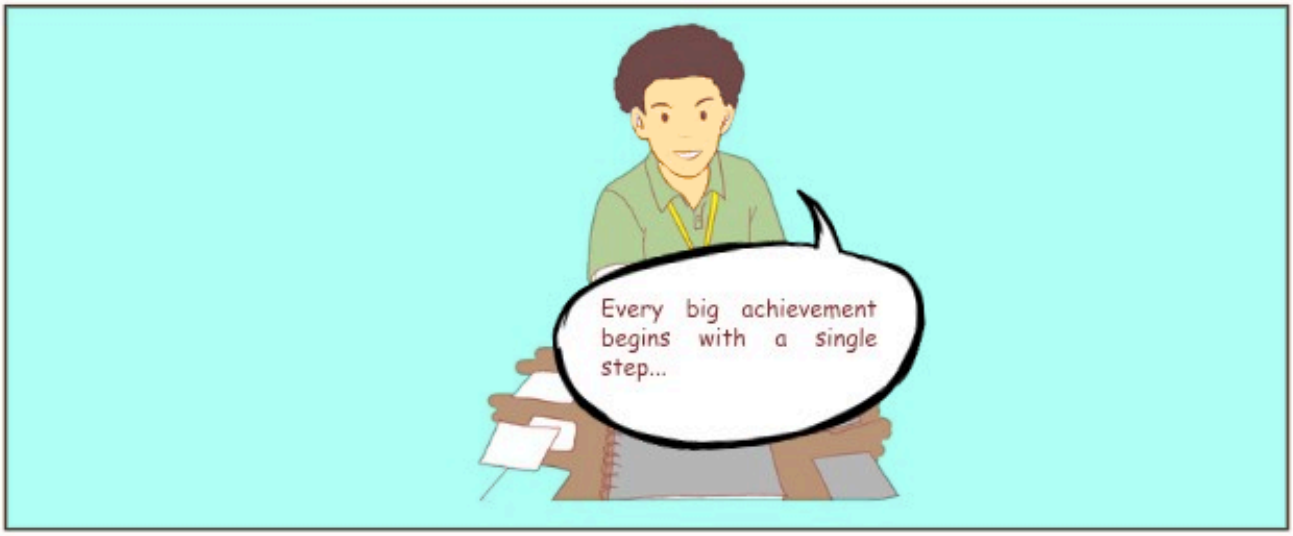

Diplomas

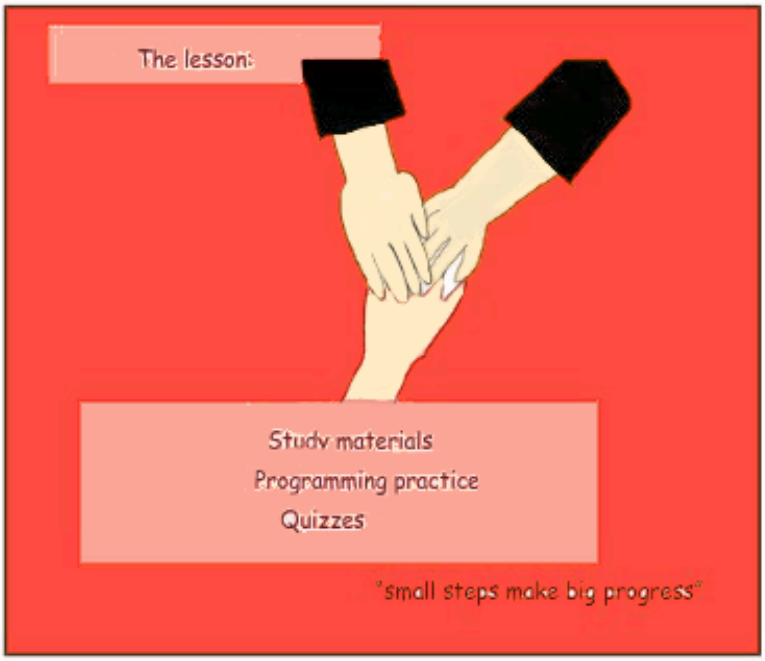

We can rest at the moment, yes

We are so proud to our children's.
Yes they really give their best!

First job
The data is sync
Yes sir,

Every big achievement begins with a single step...

The lesson:
Study materials
Programming practice
Quizzes
"small steps make big progress"

Progress makes times, and it will be worth it!

CHASING DREAMS
THE END

About

Title:Chasing dreams
Created by: Geronimo, Jamaica, Calderon, Esmael, and Delfin, Clinton
Genre: Inspirational

Sypnosis

Three IT students with different skills and dreams take on their biggest challenge yet—an IT Innovation Competition that could prove what they are capable of. Their idea is an IT Study System designed to help students study, practice programming, and test their knowledge. But as the deadline gets closer, everything begins to fall apart. Errors appear, important features stop working, and pressure starts to turn their teamwork into doubt. With only one night left, can they fix the system before it is too late, or will their dreams collapse along with their unfinished project?
